The Save Bristol Bay Road Show is headed to Albuquerque and Santa Fe, New Mexico, in February with screenings of "Red Gold," and a farmer's market event featuring wild Bristol Bay salmon provided by Seattle Fish Company of New Mexico prepared by four prominent area chefs.

A quiet attempt at changing the mission statement of Alaska's Department of Natural Resources is generating public scrutiny and the attention of legislators. Department Commissioner Dan Sullivan is seeking to remove the words "conserve," "enhance" and "future Alaskans," from the agency's mission.

Rep. Paul Seaton (R-Homer) said defining an agency's mission is the legislature's responsibility, and that lawmakers will make the decision on whether to change it.

DNR's previous mission statement: "To develop, conserve, and enhance natural resources for present and future Alaskans."

DNR's new mission statement (already on its website): "Responsibly develop Alaska's resources by making them available for maximum use and benefit consistent with the public interest."

The Mushers for Bristol Bay continue to appear at events, including a session on hard rock mining at Northland College in Ashland last week. They will be running the sled dogs in the Apostle Islands race Feb. 4 and 5.
